ADVISORY ON SAFETY AND SECURITY CONCERNS

Dear Parents,

Greetings.

1. During the surprise rounds conducted by the School Management Committee at 0715hrs on 31 Jul 24, it was observed that a number of Parents were bringing their Children to School on foot using the School main road instead of using the footpath which is the safest option for Children and Parents.
2. Parents and Students movement on the main road where hundreds of two wheelers and four wheelers are crossing, especially when a footpath is available, is a serious cause of concern for everyone which might lead to unnecessary and avoidable road accidents.
3. Precious little can be done subsequently when irretrievable damage may have been caused as a direct consequence of such indifferent, casual and non-conformist behaviour, ignoring all norms of road safety despite repeated requests
4. In view of the above, all parents and students who come walking to school are required to use only the footpath during their arrival to and dispersal from the school.
5. Disciplinary action will be initiated by the Naval Provost Team against the defaulters with effect from Thursday, 01 Aug 24.
6. Your kind cooperation is highly solicited in this regard to ensure overall safety of our Children and also in teaching them the best practices on safety and security.

Warm Regards,

NKhare
(Dr. (Mrs) Nandana Khare)
Principal
NCS, Mumbai
